Title/Episode: The Scary Night

By: Jaylene, Danna, Annelle, Mariahna, and Bryanna

Once upon a time a girl named Ashley was walking through the beach when she saw a figure popping out of the ocean. She got scared and ran away. She went running to her house and went to tell her mom.

“Mom, I saw a figure in the ocean!” Ashley screamed in terror.

Her mom said, “Is this one of your imaginary friends?”

“But mom, it’s true!” Ashley said.

“Ashley, I don’t believe you.” her mom said.

Ashley sighed and went upstairs to her room. She texted her friends about the situation and they all decided to go investigate about the creepy creature.

The next night they met at the beach at 7:30pm. It was a hot and dark night.

“Ashley, it’s too hot on the beach,” Liddie said.

“We can’t give up now, we have to investigate what this mysterious creature is!” Ashley said.

Each of her friends brought a backpack filled with gadgets they might need. Liddie brought enough flashlights for the whole group, and Lee

brought walkie-talkies for everyone.

Suddenly, they heard a splashing noise coming from the ocean, it was so close it splashed them with water.

They looked at the water and saw tentacles sticking out from the water and reaching for them. The tentacles belong to an octopus bigger than two hundred people stacked on top of each other.

The friends screamed, and dropped their things.

Title/Episode: Little Timmy vs. The Evil Humanity

By: Jenny, Mya, Mariella, Tanyalee, Christen, Arielle

Little Timmy Euphoria was so evil that he almost destroyed the whole earth. He used the whole ocean to make a huge tsunami that wiped out almost all of humanity. “Hahahaha! This is what you get, you disgusting humans!” yelled Timmy.

It turned out, he wanted revenge against the sailors who took out his parents when he was a little octopus. “Now, what do I do next?” asked Timmy to himself.

Once he almost wiped out almost all of humanity, leaving only a hundred people, Timmy wanted to start a new civilization made out of all kinds of fish and sea creatures. He built cities out of kelp and seaweed.

He also found a hammerhead shark as his new sidekick. His name was Derpy Seatiger. He pretended to be a loyal sidekick to Timmy by helping him build all of the kelp buildings. He acted nice and caring to the sea creatures.

However, Derpy was a mischievous traitor. The truth was Derpy was half human. In the ocean, he could turn into a hammerhead shark. He was secretly working for the human company Community of Half-Human Sharks (aka COHS), which focused on exterminating sea creatures. Derpy gave the company key information about what was going on under the sea.

A few days after Timmy completed the kelp buildings, they began to dissolve. One by one, the sea creatures complained to Timmy about the dissolving buildings and blamed him. All of a sudden, BOOM! To be continued

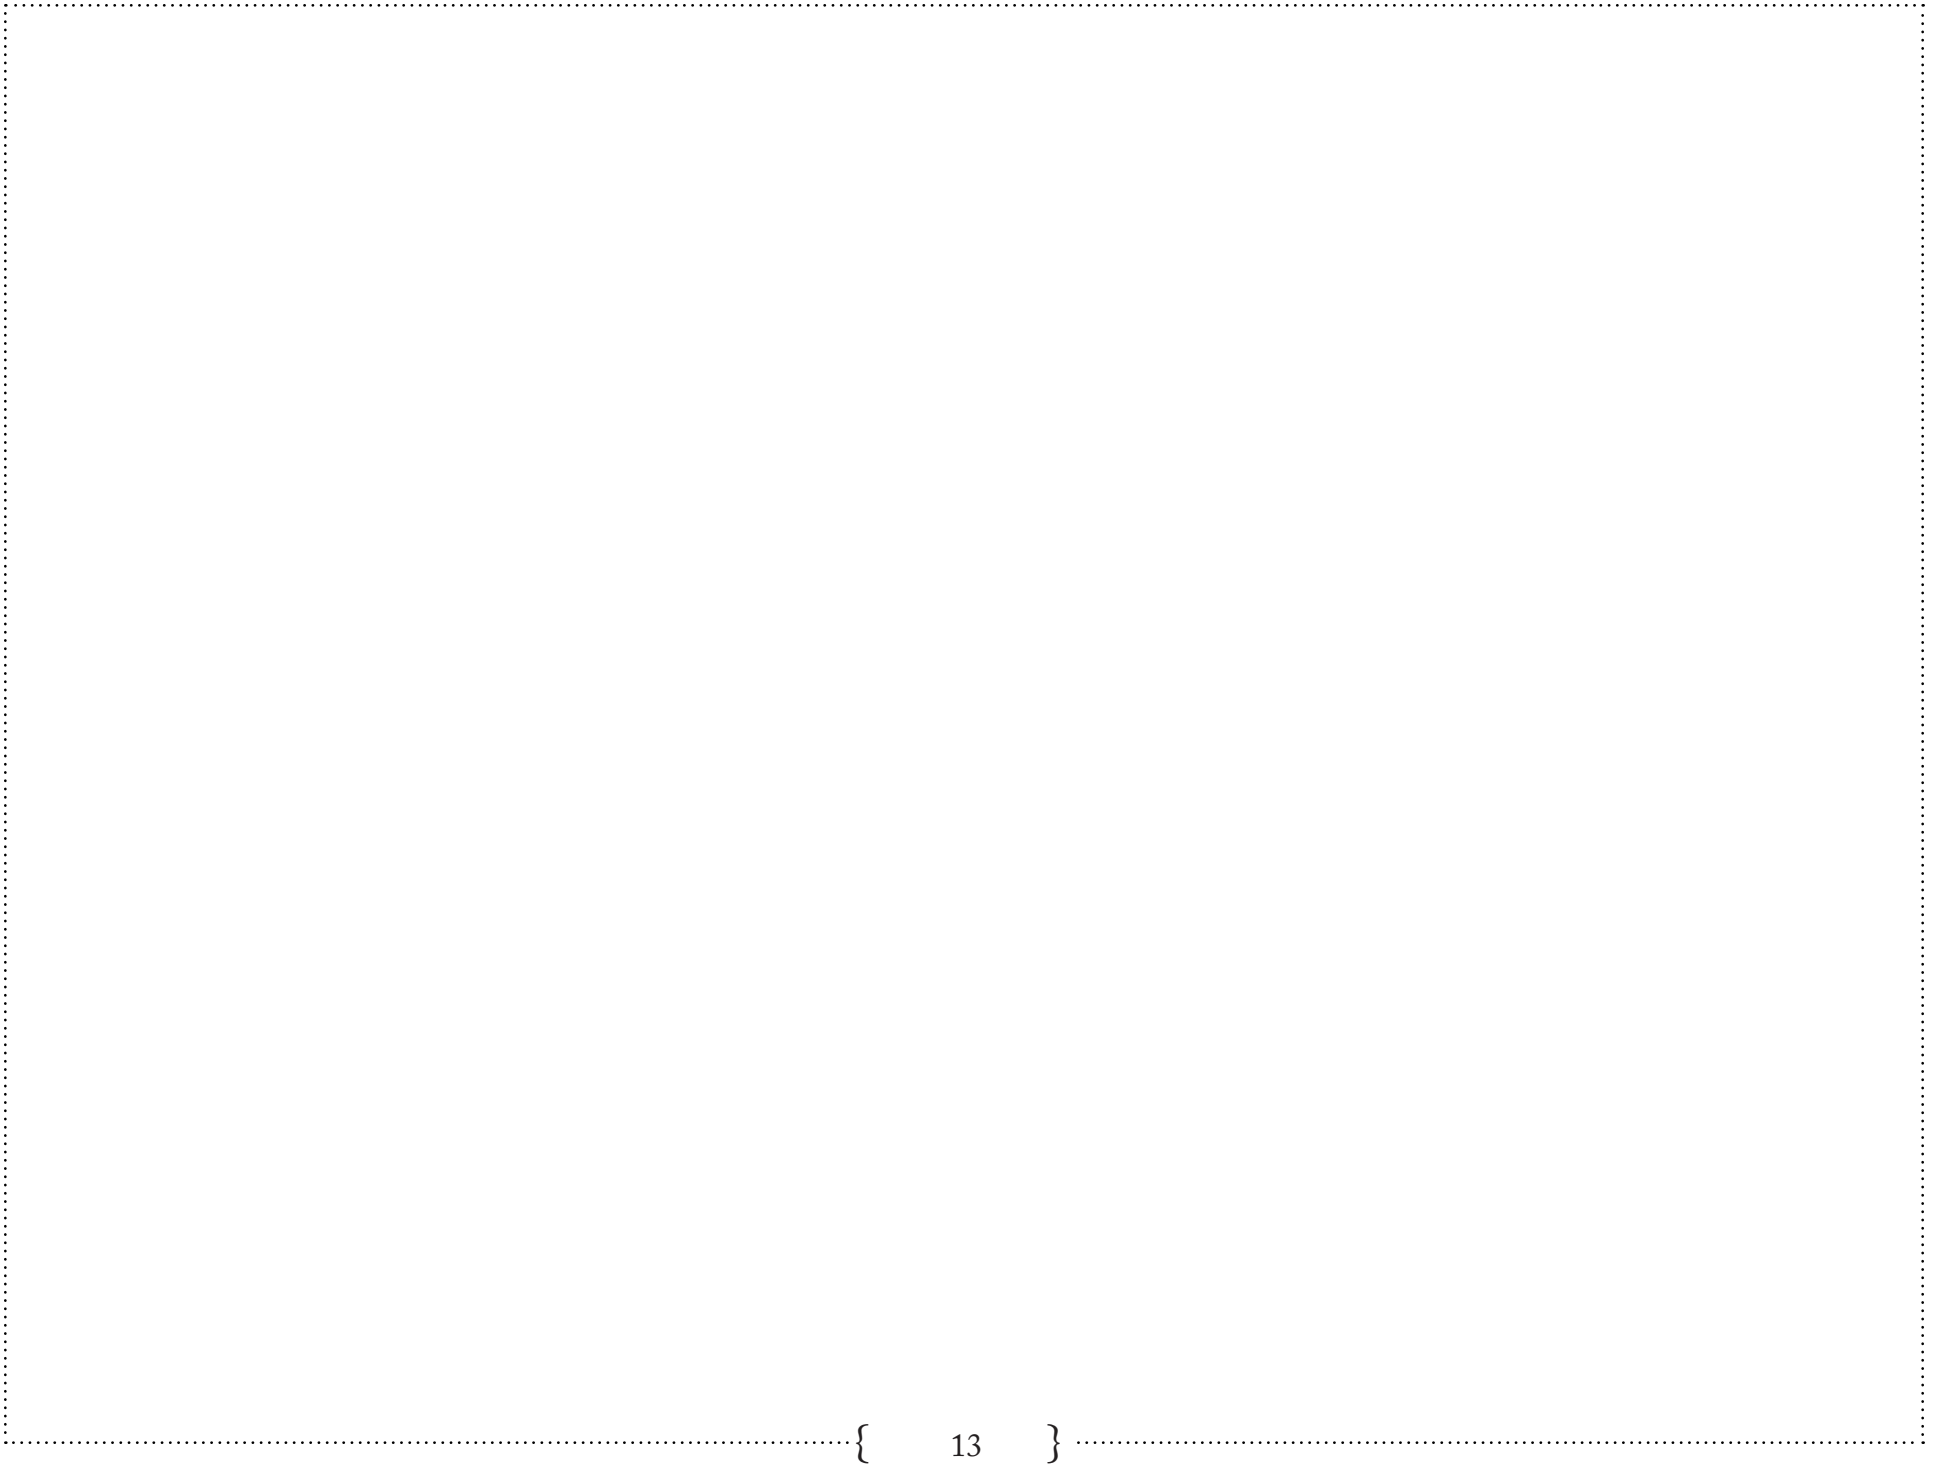

Title/Episode: The Mystery of the Dead Turtle.

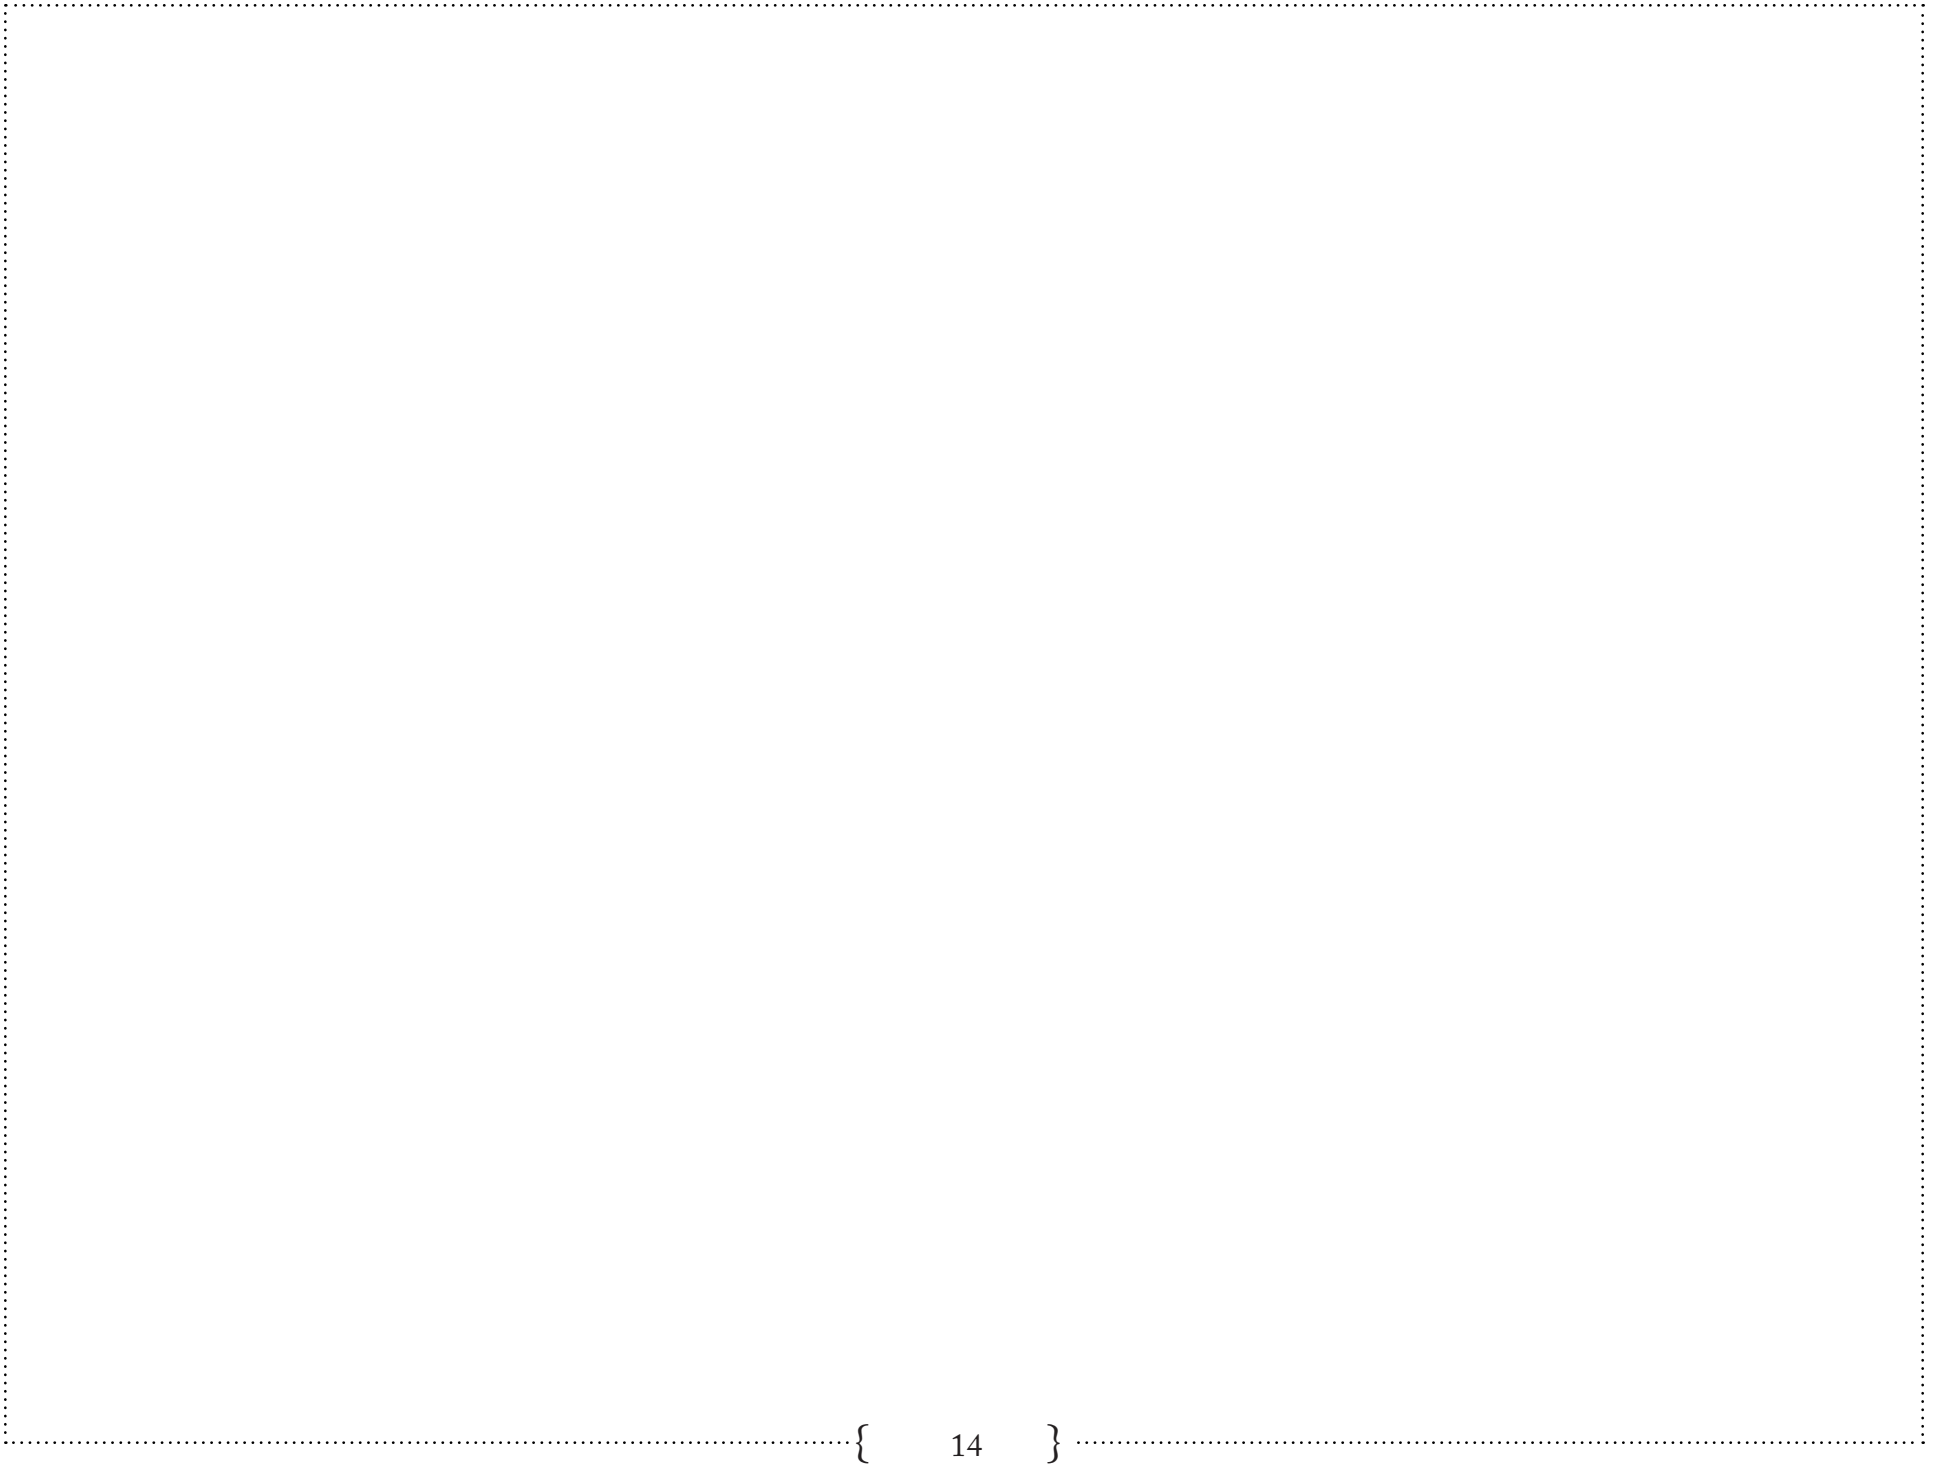

By: Kwame, Mory, Nathan, Mohammadouboury, Oscar, and Amir

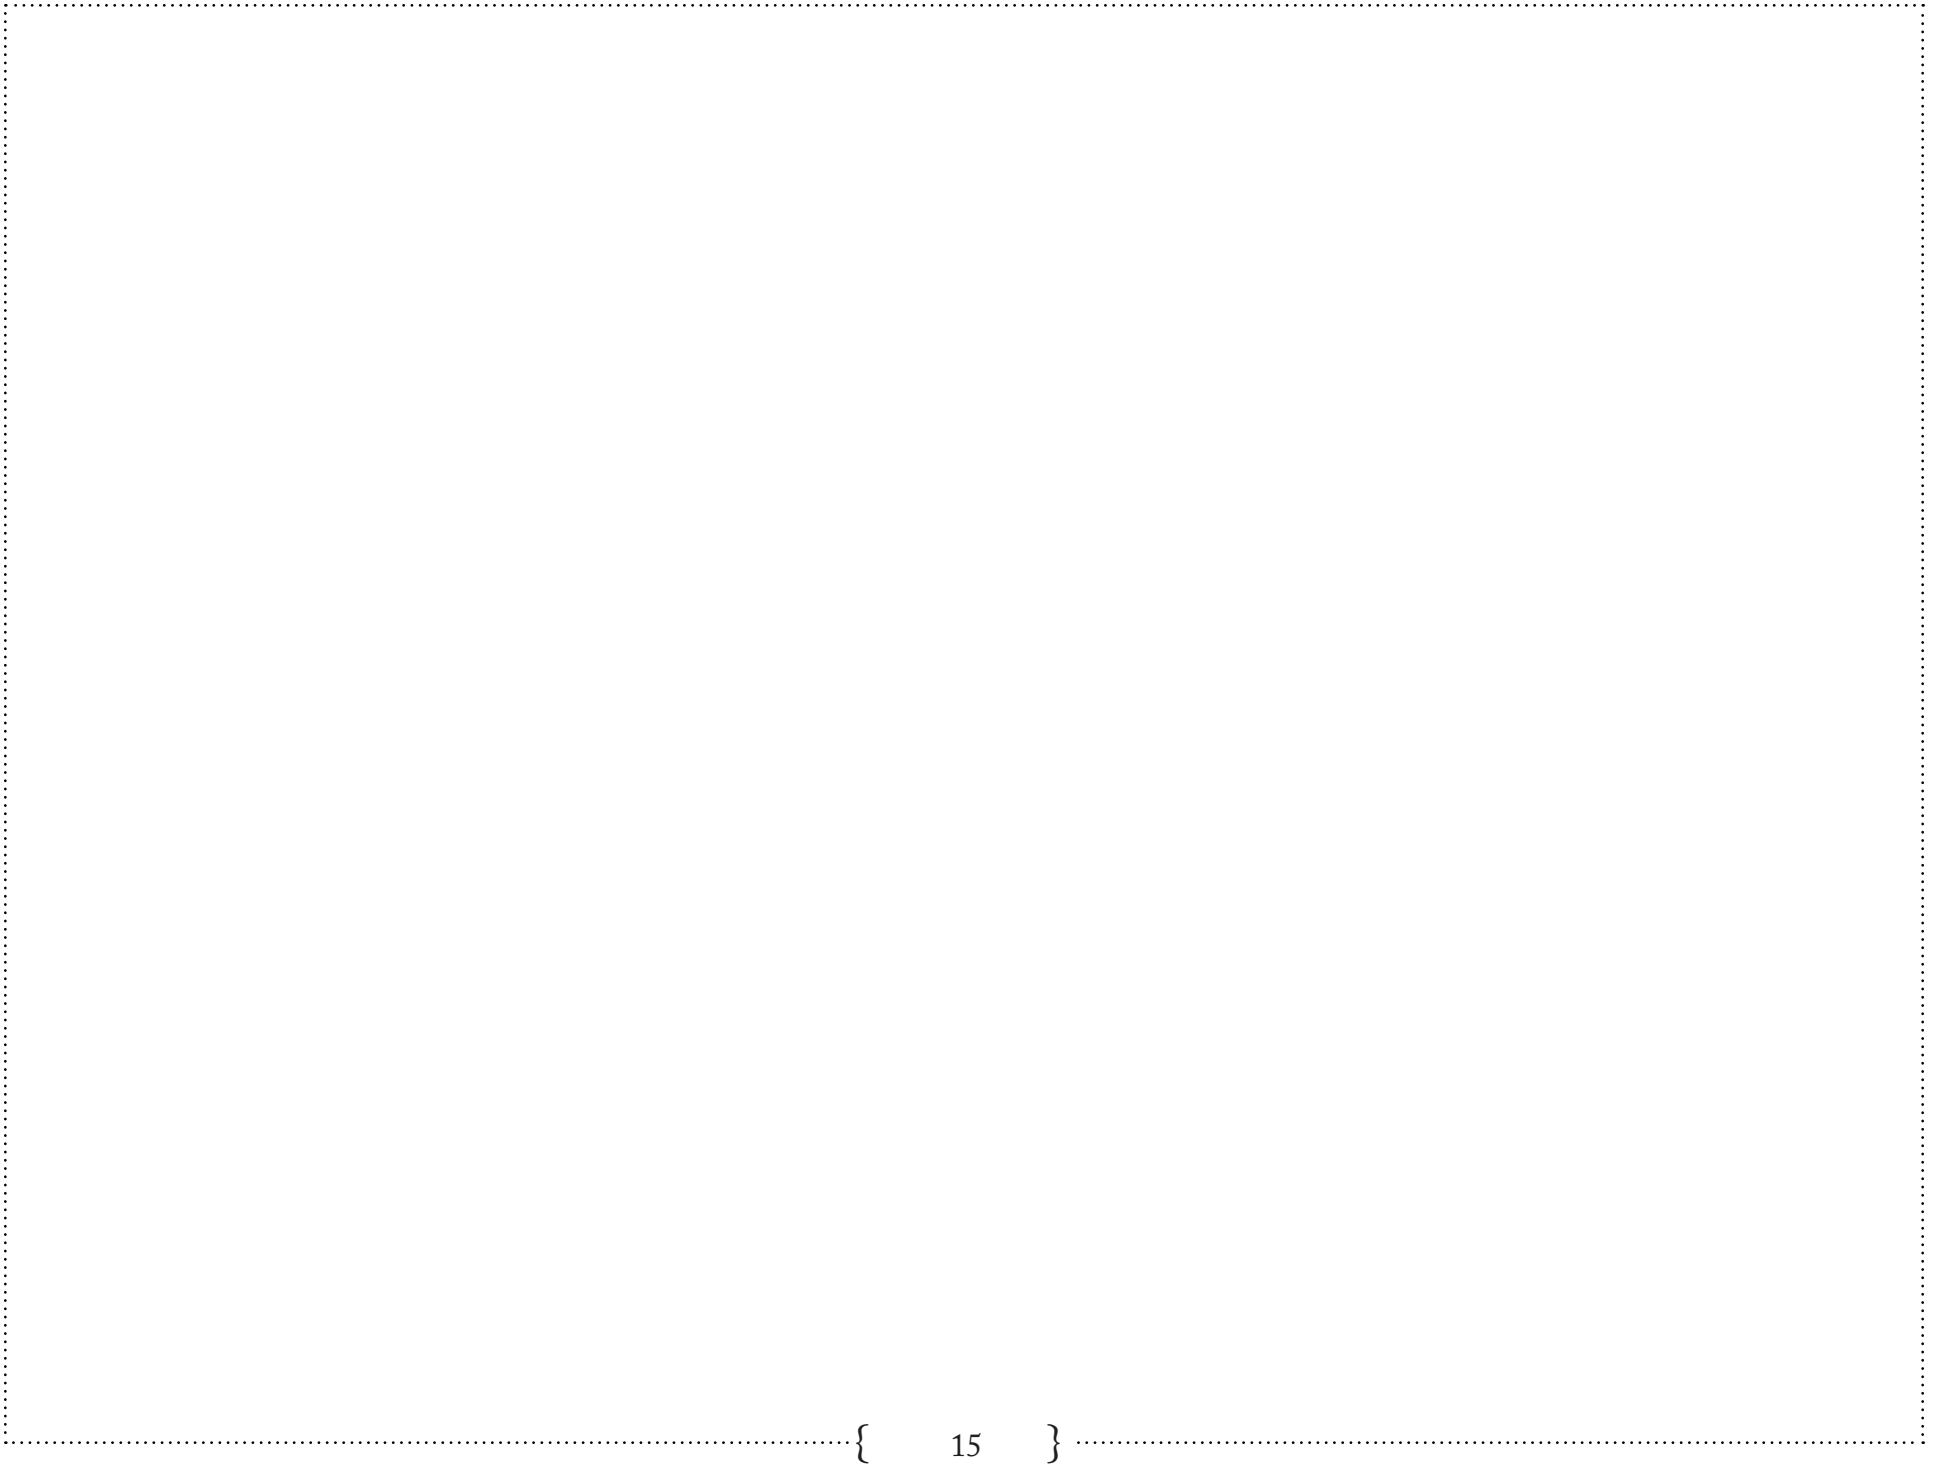

A fennec fox named Jax went into the ocean to get water and food. While he was down there, he ran into a turtle named Myrtle, and the two of them were seen together by a horseshoe crab with powers similar to those of our protagonist. When Jax saw a big tuna, he ran away to go catch it to bring it back to his family. However, as he was dragging the tuna out of the water for his children, Tim Euphoria shot out of the water and waved his tentacles at Jax. When Tim's tentacle reached Jax's huge ears, he was surprised to find himself dropping the fish and walking back into the ocean. Tim Euphoria walked him back to where he was last seen with Myrtle, and it was there that Jax was

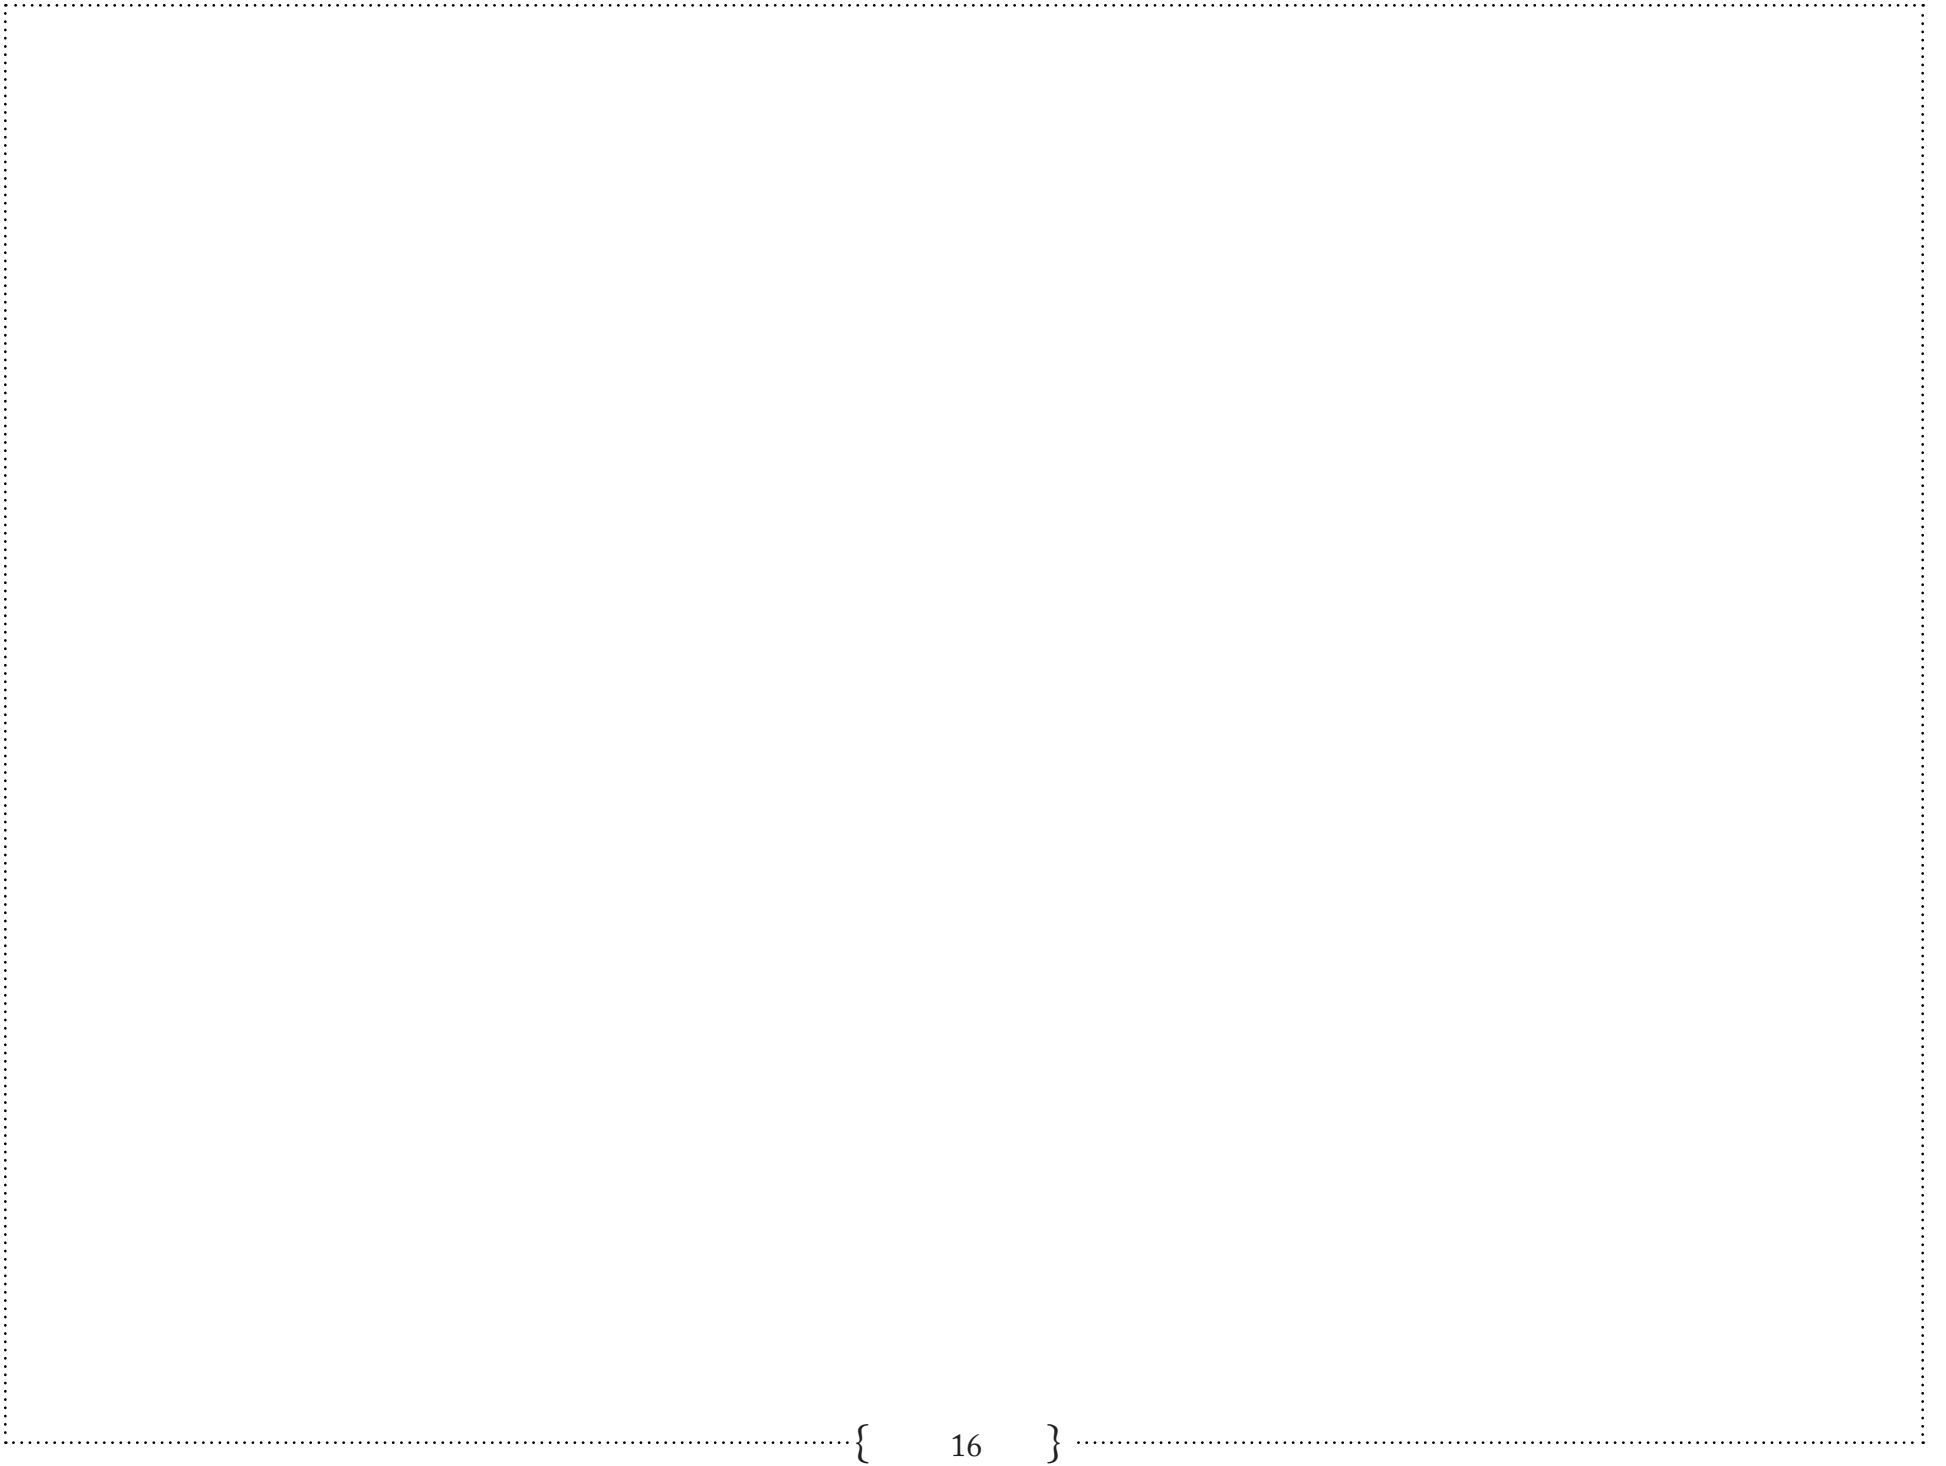

horrified to discover Myrtle's dead body. "You know anything about this, pal?" asked Tim. "No, the turtle was alive the last time I saw him," protested Jax. "Well, you're coming with me down to the courthouse, playing dumb or not." Tim Euphoria approached Jax's ears with his tentacle, but, now knowing the evil octopus's tricks, Jax deftly drew his claws and swatted it away. Tim backed away and raised his tentacles threateningly. Jax lunged forward, and at the same instant, so did Tim Euphoria. Then, he put two of his tentacles on Jax, attempting to hypnotize him, but thunder began to glow from Jax's veins, from head to toe. With a huge "ZAP," Jax latched his jaws onto Tim Euphoria, and the venom in his bite made his two tentacles fall off.

826NYC Programs

Write After School: Reading and writing go together like peanut butter and jelly. Write After School students work alongside 826NYC staff and volunteers to build their reading, writing, and social-emotional skills and unleash their imagination as they play and learn about the power of language. Twice a year, students revise their creative writing for publications that are printed in English and Spanish and shared with families, volunteers, and community members at celebratory readings.

Young Writers Publish: Turn your classroom into a creative writing lab. During Young Writers Publish residencies, 826NYC teaching artists collaborate with educators on creative, impactful, curriculum-aligned projects that transform students into published authors. Residencies run from six weeks to a full year, depending on the project. Each Young Writers Publish culminates in a book, newspaper, zine, or performance featuring your students.

Write Together: 826NYC hosts classes across New York City for Write Together: an interactive writing experience that encourages creative expression, explores the elements of storytelling, and strengthens writing skills. Elementary-aged classes collaborate on illustrated children's books, middle schoolers choose their own adventure, and high schoolers learn the art of memoirwriting during a fast-paced and whimsical 90 minute narrative program.

Dungeons & Dragons & Writers: Play Dungeons & Dragons, the epic fantasy role-playing game where players craft characters to take on magical quests that can change with the roll of the dice, and write your story as you play! Adventurous authors in grades 5-12 play out an entirely original tale week by week, and chronicle their fantastical deeds in character point-of-view journals, histories, and scene writing.

Teen Writers' Collective: Young writers together from around the city come together to explore the art of writing and literary citizenship. Together, they form a community of passionate and creative peers and serve as youth leaders. Students create original writing projects in a variety of genres throughout the year, and publish their work in a professionally designed book. Paid summer internships are available for students aged 14+.

Student Publications: Through our programs, our volunteers work with students to help them create stories, poems, and 'zines. Because we believe that the quality of students' work is greatly enhanced when they are given the chance to share it with an authentic audience, we are committed to publishing student works. By encouraging their work and by guiding them through the process of publication, we make abundantly clear that their ideas are valued.
